

VISTA RAPID 18 AND RAPID 35 RAPID DEPLOYMENT DOMES

SIMPLE INTEGRATION, HIGH-PERFORMANCE IMAGING

The new Vista Rapid Deployment Domes are ideal for monitoring remote locations, particularly where the installation of permanent CCTV would prove difficult, or prohibitively expensive. Fast and easy to install with intuitive set-up, IP67 rated, lightweight (less than 10kg), and portable, both models require just a single power cable for operation.

The Rapid 18 features an 18:1 zoom lens, whilst the Rapid 35 includes a 35:1 variant. Both versions, provide 360° continuous rotation, 220 presets, and 4 programmable tours, with integrated privacy masks and on board schedules.

Enabling fast integration into surveillance networks, the Rapid camera range is equipped with Vista SmartDisc transmission technology recording images to an integrated 500GB HDD, with onboard wireless LAN and 3G routers, affording simple access to high-quality images via PC or PDA, or the latest Vista SmartVideowall software. The Rapid range is ideal for deployment where civil works cabling would be inappropriate, or prohibitively expensive.

Robust and discreet in design, the Rapid series is ideal for quick deployment within town centre systems, complementing permanent cameras by affording a simple route to additional surveillance coverage - whether to provide prompt surveillance coverage of a specific problem area, or to provide additional coverage as required. From large-scale public events to premier sporting fixtures, Vista Rapid cameras can provide effective, high-performance electronic surveillance across a variety of applications.

Key Features:

18:1 and 35:1 true day night camera options

An 18:1 module with 1/3" CCD sensor provides excellent lowlight coverage, whilst a 35:1 module with 1/4" CCD sensor allows for greater detail at distance. Both variants are equipped with 360° continuous rotation, 220 presets and 4 programmable tours with integrated privacy masks

Tried and Tested Technology

These integrated IP67-rated units use Vista PowerDome Pro and Vista SmartDisc recording technology - to deliver a robust and reliable CCTV monitoring solution

Multi Connectivity

With built in Wi-Fi / 3G router, and connection via PC / Laptop / PDA / iPhone, viewing live images is simple and easy. Archived images can be reviewed and downloaded via any of the Vista Smart alarm packages (Lite/Pro/EMS), in addition to the latest Vista SmartVideowall software

Everything in one box

The units incorporate a PTZ dome, 500GB recording capacity and comprehensive transmission solution (3G or Wi-Fi) - in one robust enclosure

500GB hard drive

Large recording capacity affords approximately 1 month's recording at 25 ips

THE PROFESSIONAL CHOICE

TECHNICAL SPECIFICATION

PTZ camera options	18:1 module	35:1 module
Zoom lens	4.7-84.6mm	3.4-119mm
Resolution	520	540
Sensitivity	0.25Lux @ 1/50th (0.0025Lux @ 1/3rd Integration)	0.5 lux @ 1/50th (0.01lux @1/3rd integration)
Presets	220	
Preset tours	4	
Learn Tours	4	
Alarm inputs	7	
RECORDING/TRANSMISSION		
Hard drive size	500Gbyte	
Record resolutions	Up-to 720x288	
Record Rates	Up-to 25 images per second	
Software	Smart Control software Included FOC	
FREE SPACE TRANSMISSION		
METHODS		
Wireless LAN	Up to 25 images per second	
3G HSDPA / HSUDPA	Up to 18 images per second	
MECHANICAL		
Dimensions	L x 375mm D x 280mm W x 250mm	
Construction	Vandal Resistant ABS	
Weight	10 kg	
IP rating	IP67	
Operating temps	-10 to +55 degrees	
Mounting options	Wall mount built into the housing Pole and corner mount brackets available separately	
Transportation	Supplied in flight case	
OPTIONS		
Extra Hard drive	VPP-RAPID-500GB	
Corner Mount Bracket	VPP-RAPID-CM	
Hard drive caddy	VPP-RAPID-CADDY
